

A simple clock domain crossover with REQ/ACK, and double synchronisation either way

NOTE:

- (1) Possible metastability on landing flop in clk_c
Possible Metastability on landing flop in clk_b

MakeWaves

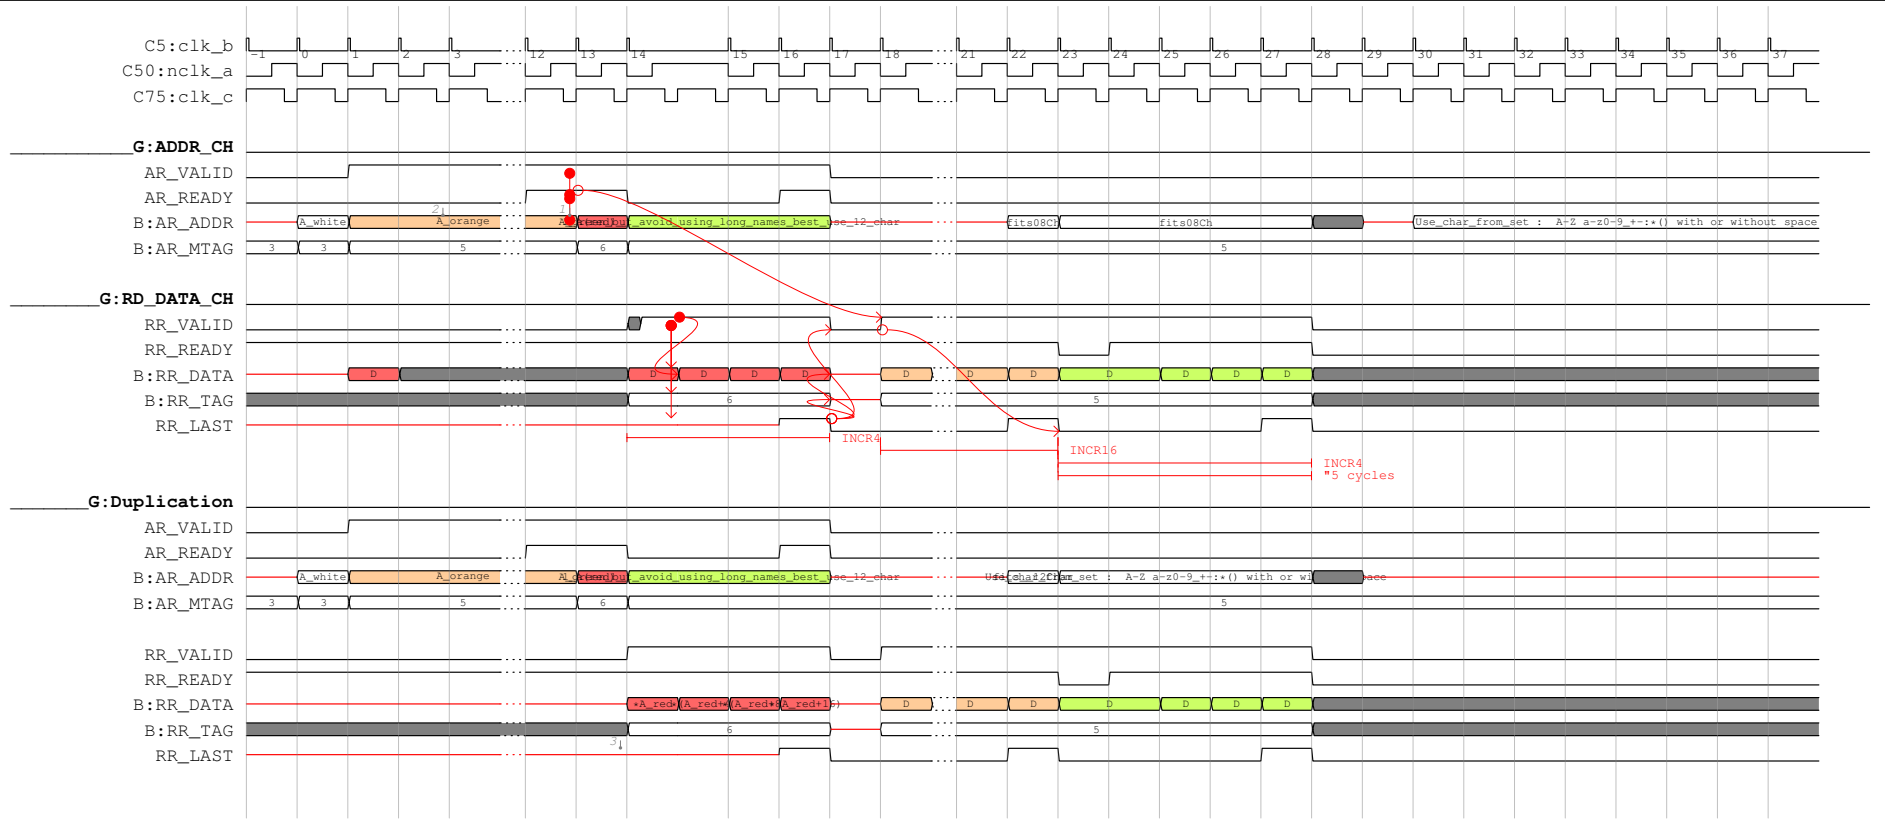

NOTE:

1. (1) Mark something on a clock cycle.
2. (2) The text just fits
3. (3) A glitch at the beginning of the clock
4. (4) Negative glitch
5. (5) Transition to 1

Next cycle transition to 0

This is a multi line note with chars A-Z a-z 0-9 _ + - : [] ()

Use this as a template, Usage hint in comments. Special characters will lead to a double quote, try with and w/o the comma

NOTE:

- (1) Address is sampled when both valid and ready are high
- (2) Address cannot change when valid is high and ready is low
 - + Hahahhann
 - + one more line
 - o Whatever
- (3) Example, illustrating use of ,:*-and different column.
